

## Softgroup .Net Print Objects Readme

---

### Description

Providing support for printing is one of the common hard tasks during application development.

The .NET Framework provides excellent support for printing documents but not provide support for direct print of controls content.

Softgroup .Net Print Objects is a fast, small and lightweight .Net library that provide nice and accurate print and preview for most common used .Net controls, not provided directly from Visual Studio 2005.

Supported .Net controls:

- **CheckedListBox**
- **DataGrid**
- **DataGridView**
- **Forms**
- **Images (TIFF multipage included)**
- **ListBox**
- **ListView**
- **TreeView**
- **RichTextBox**

Softgroup .Net Print Objects features:

- All in one: print and preview functionalities integrated in a single .Net 2.0 native control
- Very easy to use: only one line of code is needed to print or preview a control
- Display printer setup dialog before print or preview
- Display page setup dialog before print or preview
- Full control of page margins
- Multilanguage support of any text displayed
- Customize any print header text aspect (font, color and location)
- Customize any print footer text aspect (font, color and location)
- Customize page numbers text aspect (font, color and location)

### Requirements

Prior to running Setup to install the Softgroup .Net Print Objects, you must already have the .NET Framework 2.x, 3.x or 4.x and Microsoft Visual Studio 2008/2010 installed on the computer.

### Installation

Softgroup .Net Print Objects is provided as single setup package that contains all required files and documentation.

See FAQ list for more details.

### Documentation and informational resources

Softgroup .Net Print Objects has exhaustive documentation supplied with installation where every aspect of using the product is covered in details. See NetPrint.chm.

You can also download the documentation from our site.
