

## Softgroup .Net Progress Bar Readme

---

### Description

Softgroup .Net Progress Bar Control is an advanced sets of highly customizable progress bar controls to enhance the user interface of your applications.

Softgroup .Net Progress Bar contains three controls:

- ProgressBar: a classic continuous progress bar control with customizable colours, gradient effects and direction
- ProgressBlock: a block progress bar with customizable colours, gradient and grass effect
- ProgressLoop: a loading loop progress control that can emulate IE, FireFox, MacOSX or custom progress loop

### Requirements

Prior to running Setup to install the Softgroup .Net Progress Bar control, you must already have the .NET Framework 2.x, 3.x or 4.x and Microsoft Visual Studio 2008/2010 installed on the computer.

### Installation

Softgroup .Net Progress Bar control is provided as single setup package that contains all required files and documentation.

See FAQ list for more details.

### Documentation and informational resources

Softgroup .Net Progress Bar control has exhaustive documentation supplied with installation where every aspect of using the product is covered in details. See NetProgressBar.chm. You can also download the documentation from our site.
